With help from Gloria's Total Beauty Salon and Spa in Warwick, the C.O.L.O.R.S. Foundation raised \$700 at its initial 'Glimmer of Hope' fundraiser in December. Proceeds benefited the "Be the Miracle" program, which helps battered and rehabilitated women regain their confidence through makeovers and other self-esteem building events.

The C.O.L.O.R.S. Foundation partnered with Seacret, Minerals from the Dead Sea to highlight the importance of skin care and provide complimentary facials. The foundation, based in Wappingers Falls, offers five charitable programs that promote love and unity: mentoring bullies, inmates and battered women, supporting the homeless, improving self-esteem, developing spiritual awareness, and incorporating positive thinking.

"Providing makeovers to these women demonstrates symbolism of taking the first transitional step towards self-worth. Feeling beautiful on the outside penetrates the beauty on the inside," says Delsie Howey, CEO and founder of the C.O.L.O.R.S. Foundation.
